

POLICY DOCUMENT

E6.1 STUDENT LIBRARY RULES POLICY

1 Policy Statement

Library facilities are provided in support of academic research and the academic programs of the College and Academy. The policies contained within Library Rules assist in ensuring that library use is ethical and fair, that the library is a pleasant, quiet place of study, and that the behaviour of library users does not impinge on the rights of others. Users are required to respect, and comply with, the Library Rules to ensure an appropriate environment for study, research and professional assistance.

By virtue of using the ACPE library, ACPE and ACPE Academy students agree to the terms of the Library Rules. These rules are consistent with, and complement the student Code of Conduct, available on the Policies and Procedures page of the ACPE website.

2 Purpose and Scope

The purpose of this policy is to outline the rules and guidelines for ACPE College and ACPE Academy student use of the library.

3 Authorities and Accountabilities

Library Staff

4 Policy Administration
